SOLDIERS STILL DEMAND BOOKS AND MAGAZINES

WASHINGTON, Feb. 24. (Sp.)—The end of the war has not brought any reduction in the demands for magazines and books required by the libraries, but most people apparently have felt there was no further need for these and the receipts accordingly have dropped almost to nothing. In point of fact there is greater demand for these magazines and books than ever. Still held in the camps than there was before the armistice was signed, as for long hours for drill have been reduced to the minimum in most camps. Notices are being sent out by the American Library Association, through Milton W. Meyer, director of publicity for the library war service, requesting a resumption of gift magazines. Most of these publications, since the first of the year, have dropped the little notices which they put at the top of the public that a 1-cent stamp will carry such magazines to the soldiers. Postmaster-General Hughes has advised Mr. Meyer that the government is still ready to perform the service and that the signing of the armistice does not alter it in the least.

Praise Lydia E. Pinkham's Vegetable Compound as the Greatest Remedy for Women's Ills.

New Haven, Conn.—"For two years I suffered with a female weakness, pains in my back and painful periods, and I was so weak and tired that I was not able to do my work. A friend told me to use Lydia E. Pinkham's Vegetable Compound and it gave me great relief. My pains left me and I am now able to do my work and feel fine. You can publish my testimonial and if your Vegetable Compound does others as much good as it has me I will be very much pleased."—Mrs. CHARLES E. MORAN, 37 Sea Street, New Haven, Conn.

COURT-MARTIAL REVIEW DEMANDED

Senator McKellar Introduces Resolution to Correct All Injustice to Soldiers.

BY CHARLES S. HAYDEN

WASHINGTON, Feb. 24. (Sp.)—If plans outlined by Senator McKellar are followed, the injustices of court-martial trials, held during the war, will be corrected. To that end he has introduced a joint resolution in the United States senate, which has been referred to the senate committee on military affairs, the members of which are all said to favor a step in this direction.

"There is no doubt in my mind," said Senator McKellar, in discussing this resolution, "that there have been many instances of injustice. Some of these, I recognize, may have been necessary to preserve discipline and when the country is at war we are apt to look at things in a somewhat different light than after peace is declared and even after an armistice has been signed. The resolution which I have introduced, and on which I hope action can be obtained, provides that the president may be authorized to appoint and convene in the judge advocate general's department as many reviewing boards as may be necessary to re-examine and review the court-martial trials held during the war. These boards are to be empowered to examine into all questions, both of law and fact, and authorized to examine new evidence. In doing so, however, they are not to consider the judgments of the courts-martial binding on them in any sense and shall take into consideration the punishments already inflicted. When the justice of the case may warrant these boards are to alter, amend, set aside or confirm the previous findings. They are to act by a majority vote under the direction of a chairman of their own choosing, but no case will be referred to them unless they have taken part in the court-martial trials of the war or reviewed them."

ARMY REFRIGERATING SHIP AFIRE IS SUNK

NEW YORK, Feb. 24.—The army refrigerating ship *Sixola* was sunk at her pier in New York last night by a fire which broke out in her hold. Two members of the crew, an officer and a boatswain's mate, who were helping fight the fire, are missing and are believed to have perished. The vessel was loaded with beef and was about to sail for Brazil.

The missing men are Lieut. E. H. Foster, Brooklyn, commanding the vessel, and boatswain's mate Frank Bremer, Rochester, N. Y. They had donned gas masks and entered the hold to open scowls to sink the vessel. The hold was partly flooded and they are believed to have drowned after fulfilling their mission. Foster had previously been carried from the hold, overcome by smoke. A rescue squad from the U. S. Montana attempted unsuccessfully to reach them.

While crew and firemen were trying to check the flames, the vessel was heavily damaged. Her main jammed against the pier and stopped off, narrowly missing several firemen.

The cargo, valued at \$2,000,000, will be a total loss. The origin of the fire has not been determined.

The *Sixola* was owned and operated by the United Fruit company at the outbreak of the war. The vessel, originally of 5,000 ton capacity, had been remodeled for transport service, being reduced to 3,000 tons. She arrived here from Bordeaux, Feb. 17, and was to have sailed tomorrow.
